A cartoon illustration of a chef named Cookie. He is wearing a white chef's hat and a white apron over a yellow shirt. He has a determined expression, with his hands on his hips and a fist raised. He is holding a frying pan in one hand and a wooden spoon in the other. The background shows a simple landscape with green grass and a blue sky.

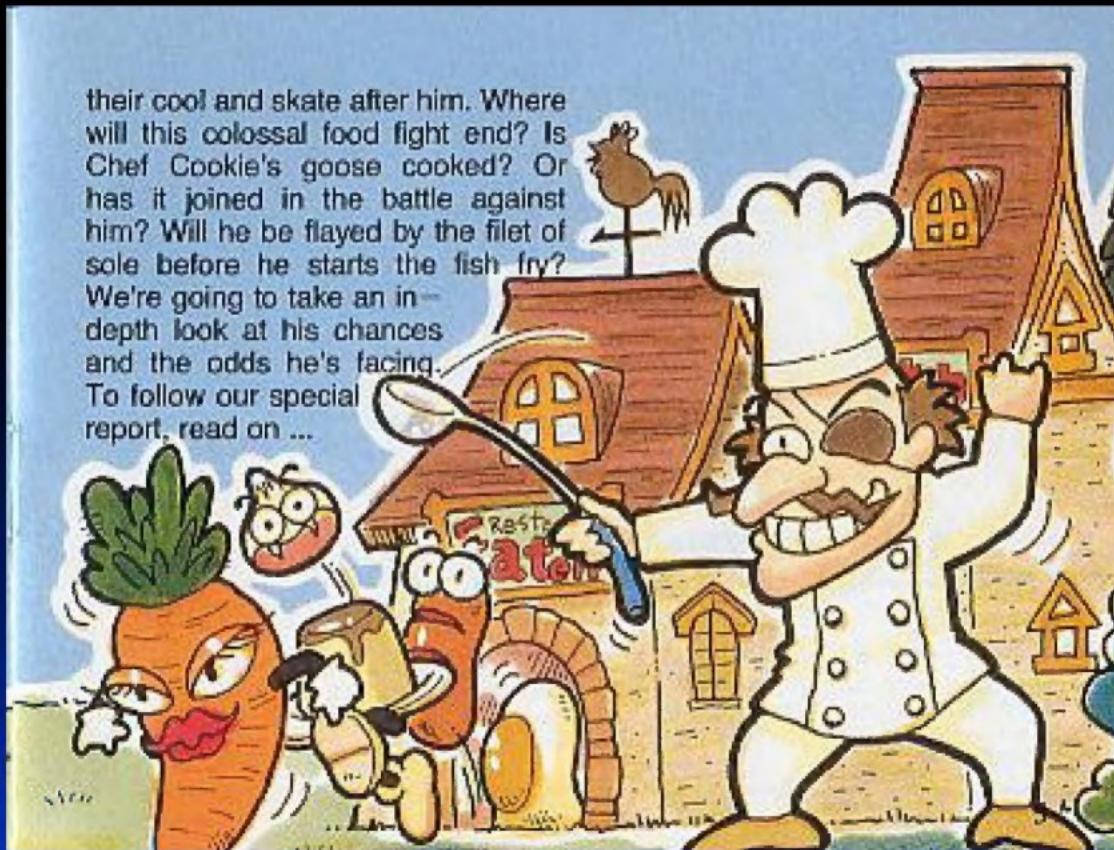

MAJHEM AT PANIC RESTAURANT

This report just in! Mutant food takes over the Eaten Restaurant! That's right folks—looks like the meat has gone bad and the buns are on a roll! The whole situation smells fishy. But even as we speak, Chef Cookie is about to enter his restaurant and cut the overgrown veggies down to size. Armed with only a frying pan and a few kitchen tools, he hopes to make a hash out of this revolting food. But things could get foul when Cookie tackles the spoiled chickens and rotten eggs. Bouncing chicks is an ugly job, and there's much more to it than that. Even the kitchen utensils are after Cookie's hide—he'll be leaping from the fire into the frying pan. Rabid hot dogs will be barking at his heels while scoops of ice cream lose their cool.

their cool and skate after him. Where will this colossal food fight end? Is Chef Cookie's goose cooked? Or has it joined in the battle against him? Will he be flayed by the filet of sole before he starts the fish fry? We're going to take an in-depth look at his chances and the odds he's facing. To follow our special report, read on ...

THE CONTROLS

CONTROL PAD

In a recent interview, Cookie stated that he moves left or right when the Control pad is pressed. He can also duck when it is pushed downward.

START BUTTON

To begin the game, or to pause while playing, push Start. Cookie begins his rescue mission at Level One.

SELECT BUTTON

The Select Button will pull Cookie out of a bonus level and return him to the Eaten Restaurant.

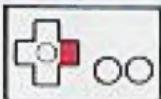

B BUTTON

Cookie will be able to use different weapons against the food army. To attack with one of these weapons, approach the enemy and push B repeatedly.

A BUTTON

Research has shown that when the A button is pushed, Cookie jumps. Pressing A and using the Control pad for direction makes him jump to the sides.

COOKING ENEMIES

Cookie told this reporter that he will use ordinary kitchen items against the food army. He plans to find

these items in Eaten's and then use them as weapons for a while or until he loses a life.

1. THE FRYING PAN

Cookie usually has a frying pan for a weapon. So when he loses one of the special weapons, his frying pan returns.

3. THE FORK

Cookie plans to leap over danger areas on this bouncing fork. He can also knock out enemies when he lands on them.

2. THE SPOON

Cookie can reach further with the long spoon. Once he gets it, he can bop his enemies with it until he loses a heart.

4. PLATES

Cookie has announced that he will be throwing plates at the food army. This is done with B and the Control Pad.

5. THE POT

Cookie has a pot designed to fit his head. When he wears this pot, he is invincible and spins for a while.

6. EGGS

These rare eggs are stashed in Eaten. They are effective against a certain kind of enemy you'll meet.

HELPFUL ITEMS

Folks, we've just had a report that the last customer to ever be in the Eaten Restaurant hid some gifts for

Cookie. This person must have known that someday Cookie would return. Here's more on that:

CHEF HAT

This reporter was told that if Cookie finds the Chef's hat he will receive an extra life.

CANDY

Research has shown that when Cookie eats candy, one of his heart meters is filled up.

LOLLIPOP

Cookie starts out with two hearts, but a lollipop adds an extra heart to his meter.

THE RESTAURANT

DATELINE: The Eaten Restaurant, early morning. A strange hush has fallen, now that Cookie is about to

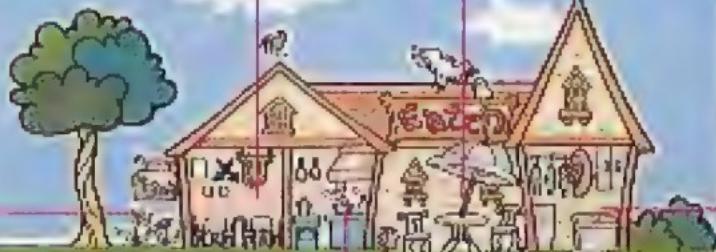

enter what's left of his restaurant. He must start at the first stage and work toward the sixth.

Stage 1

Stage 2

Stage 4

Stage 5

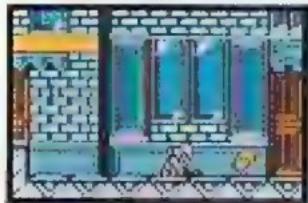

Underground

Stage 3

Stage 6

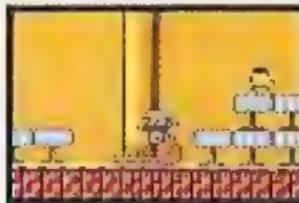

Stage 1: *Garden*

Cookie must first pass through the Eaten's big garden and then the entrance. He will face hot dogs, chicken legs, mud carrots, and custard puddings here.

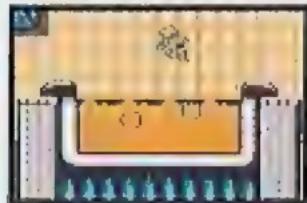

Stage 2: *Dining Room*

In the Dining Room, lollipovers are waiting to jump on Cookie. He will have to dodge pizzas, onions, and apples, while getting over tables and counters.

Stage 3: *Kitchen*

The danger increases in the kitchen--boiling pots of water and gas burners make it hot for Cookie. He will be chased by coffee cups and popping toasters.

Stage 4: *Courtyard*

It's an outdoor barbecue--with Cookie on the menu! Lawn chairs and shish kabobs are after him here.

Stage 5: *Freezer*

Some of the many dangers here are: slippery floors, icicle spears, falling fish, and skating ice cream.

Stage 6: *Basement*

To win his restaurant back once and for all, Cookie must go down to the basement and face the mad Chef.

SPECIAL EVENTS

If he looks carefully, Cookie will be able to find bonus levels in the Eaten. In these bonus levels,

Cookie can win points, lives, or energy. All he has to do is try his luck in different games.

1. Slot Machine

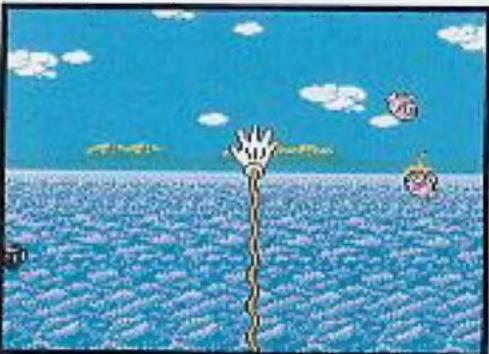

FLASH! Our inside reporter has just announced that the slot machines in the Eaten are still working! This is very good news for our hero. Every time Cookie bops an enemy, a coin will appear. He needs to collect these coins to use at the

slot machines. When a slot machine appears, push A to enter the coins. Then push B to get the machine started. Cookie can quit playing when the Select Button is pushed. This will return him to where he was.

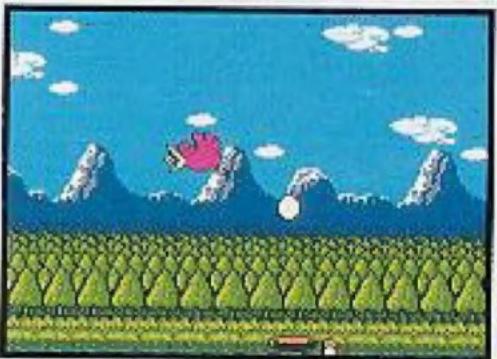

2. Go Fish

Cookie will earn 100 points for every fish he catches. Push A or B to make a grab. He must NOT touch the black fish—they will explode, and that ends the bonus level. Cookie has about 15–20 seconds to go fishing, then he is returned to the Eatery. Our hero should not grab too fast—the black fish will appear when least expected.

3. Fried Eggs

In this bonus level, Cookie will have to catch eggs in his frying pan. Use the Control Pad to slide the pan left or right. Cookie must NOT catch the black eggs—they're rotten. Black eggs will blow Cookie out of the bonus level. He has about 15–20 seconds to catch all the eggs he can. Each egg is worth 100 points.

PLAYING TIPS

A GOOD CHEF IS PATIENT

Cookie must be slow and patient. If he goes too fast, he'll surely make mistakes. In the Dining Room, Cookie will have to watch out for tables. In the kitchen he could run right onto a burner. The freezer is very slippery, and frozen fish fall down from above. These are a few reasons for patience.

CHOOSE WEAPONS WITH CARE

This reporter has learned that Cookie will not need every special weapon that he finds. Some weapons will only get him into trouble. Our hero must try different methods to learn when he should or should not pick something up. Some of his enemies can only be stopped with a certain kind of weapon.

WATCH THE LEVEL BOSSSES

The level bosses move and fight in specific patterns. If Cookie learns these patterns by watching the bosses, it will be a lot easier for him to defeat them. The bosses he must beat are Popcorn Palm, Microwave Mick, Willy Wok, Patty O' Berger, Frozen Fritta, and, of course, Oldove, the mad chef.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and, if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that the computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio or television technician for additional suggestions.
